Threestones appoints MD and is interested in other asset types

03/04/18

Luxembourg-based Threestones Capital Group has appointed Berthold Becker (47) Managing Director of its Berlin subsidiary TSC Real Estate Germany as of 1 April. Becker previously held the position of Managing Director and Head of Asset Management Operations at Acrest, or JLL Retail Asset Management after Acrest was taken over in 2016. Threestones states that it has been operating as a family office for 20 years and has since become a fund and asset manager for "attractive niche investments". According to a release, the firm intends to expand its service range of health properties and Berlin housing properties to include further asset types.
